It will be found to contain the purest liquors and the most healthful compounds of barks and roots. We rogard it in every respect as a superior article, possessing a fine flavor and being a healthful tonic, without the drawbacks of any reaction, as in the case of most stimulants. For dyspeptics, it will be found a most valuable and safe tonic, which can be drank as a beverage, and even the most delicate lady can use it with the best results. These hitters are known by the cabalistic letters. "I. M. O. K.—1864—Y.! Y." F. STULA Latituriantia.—A wonderful cure performed by Dr. H. A. Oais having come under our notice, we less the greatest confidence in resummending his superior treatment to such as may be afflored with diseases of the eye. This circ was performed after the case had been pronounced by eminent physicians incurable, and the eye entirely destroyed, and life despaired of. The eyes as well, benitay and brilliant as ever, and no one can discern the difference. It is really a synderful cure, and woold grace any of our "medical records." Success to Dr. Oaks and his superior treatment, which is neatively new.
